

ANNOUNCEMENT

Agriculture Rental Equipment Contractor

The Licking County Soil & Water Conservation District is seeking a seasonal Agriculture Rental Equipment Contractor.

The successful candidate will coordinate the agriculture equipment rental program including two no-till drills and a straw mulcher. Responsibilities include: scheduling rental equipment using an online calendar, scheduling pickup and return times for equipment, check-in and check-out equipment, provide orientation/assistance to renters on proper use of rental equipment, coordinate maintenance and repair of rental equipment, and be available via personal cell phone for customers outside regular business hours.

Required Qualifications:

- Experience using and maintaining a no-till seed drill
- Willingness to work a flexible schedule from mid-March to mid-July
- Familiarity with Google Calendar and Gmail or ability to learn
- Understanding of natural resource and agriculture best management practices
- Strong communication skills in person, over the phone, and via email
- Personal transportation including proof of valid Ohio driver's license and remain insurable
- Availability via personal cell phone for customers outside regular business hours

Application Procedures:

- Submit a letter explaining why you are suited for this position and two references to Licking County Soil & Water Conservation District, 771 East Main Street, Suite 100, Newark, OH 43055.
- Application Deadline – This position is open until filled, but the ideal candidate will be available starting in mid-March.
- Candidates will be considered without regard to race, color, religion, national origin, sex, political affiliation, age, marital status, or other factors.

Contract paid monthly, including hourly compensation commensurate with experience, cell phone stipend and mileage.
