LICKING COUNTY RIVER ROUND UP

History of the Licking County River Round Up

The River Round Up began as a Newark City Litter initiative in 1988 to clean up the Licking River. The annual river clean up brought out hundreds of volunteers who pulled tires, shopping carts and mountains of trash from an 18 mile stretch of the river. Through their efforts, a river that had all but been abandoned, has seen a rebirth of aquatic and bird life.

After a break of eight years, several Licking County and City of Newark agencies came together to bring back the River Round Up in 2011. The recent clean ups have been very successful.

This year, for the **22nd anniversary of the River Round Up**, our goal is to recruit more businesses, community organizations, and youth groups to form teams that help clean up additional waterways throughout the county.
