About the Licking County River Round Up

The River Round Up began as a Newark City Litter initiative in 1988 to clean up the Licking River. The annual river clean up brings out hundreds of volunteers who pull shopping carts, tires and lots of trash from streams and riverbanks. Through these efforts, a neglected river has seen a rebirth of wildlife, beauty and community pride.

Our goal is to recruit more businesses, community organizations, and youth groups to form teams to clean up more miles of rivers and streams throughout the county.
