

JOB ANNOUNCEMENT: DISTRICT URBAN TECHNICIAN

The Licking County Soil & Water Conservation District is seeking a full time Urban Technicians to join our team. The successful candidate will provide technical assistance and education for the urbanized areas of Licking County. Focus on assisting with the County Stormwater Program and the local communities with MS4 (Municipal Separate Storm Sewer System) requirements with their Ohio EPA NPDES (National Pollutant Discharge Elimination System) Program. Our work environment is high energy, high activity and mutual support. We provide opportunities for professional development and a gratifying work experience.

Main responsibilities:

- Municipal Separate Storm Sewer System MCM - (Minimum Control Measures)
 - MCM3: Illicit Discharge Detection and Elimination: Inspect and evaluate stormwater system, including outfall inspections and mapping.
 - MCM4: Construction Site Runoff Control inspections in compliance with the Licking County Sediment, Erosion and Stormwater Regulations, EPA Construction General permit and the approved Stormwater Pollution Prevention Plans - Best Management Practices (BMPS).
 - MCM 5: Post construction Stormwater Management: Annual inspections based on Operation and Maintenance plans on file.
 - MCM6: Pollution Prevention and Good Housekeeping: assist with pollution prevention training and help with facility inspections.
- Earning and maintaining a minimum of Qualified Stormwater Inspector certification
- Working with landowners/residents with technical assistance calls
- Assists in conducting tours, field days and educational presentations to elected officials, contractors and general public at workshops

Required Qualifications:

- Prefer a graduate of an accredited college with an Associates Degree or higher (preferably in civil engineering, natural resources management, environmental science or related field); or an equivalent combination of education and experience.
- Familiarity with Ohio EPA NPDES program, urban development BMPs and regulations related to erosion and sediment control.
- Willingness to perform a combination of technical, office and outdoor field work.
- Ability to traverse terrain in an outdoor environment, ability to carry and transport resource materials and equipment.
- Working knowledge of ArcView and or/ArcGIS is preferred, familiarity with Google and Microsoft Office suite a plus.
- Proof of valid Ohio driver's license and remain insurable.
- Ability to pass a Licking County pre-employment drug screening and BCI background security check.
